SUMMARY

Frontend-focused **Software Engineer with 3.5+ years of experience** building production applications with React, TypeScript and Angular. Experienced in **accessible UI engineering, Node.js/REST APIs, performance optimisation and AI-enabled workflows**, with ownership across development, debugging, testing and release.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Angular, RxJS, Tailwind CSS, Angular Material, HTML5/CSS3, WCAG/ARIA, Storybook

Backend & Data: Node.js, Express.js, REST APIs, AI/LLM API Integration, JWT, MongoDB, PostgreSQL, DynamoDB, Redis, Elasticsearch

Testing: Jest, Jasmine/Karma, React Testing Library, Postman, Perfecto, Cross-Browser/Mobile Testing

Delivery & Cloud: Git, GitHub, GitHub Actions, CI/CD, Docker, Vercel, Jira, Confluence, Azure, AWS Fundamentals

EXPERIENCE

Freelance Full-Stack Developer

Feb 2026 – Present

Remote · PropTech / Rent Management Platform

- Built an **AI-assisted rental-agreement workflow** with React/TypeScript and Node.js, transforming landlord, tenant and property inputs into structured agreements for preview and review.
- Reduced agreement preparation time by **~40%** through AI-assisted generation, reusable form/document components, validation and resilient API error handling.
- Developed **property and tenant management workflows**, integrating React with Node.js REST APIs to surface rent status, tenant details and agreement actions across responsive dashboards.

Accenture — Packaged App Development Associate

Nov 2023 – Nov 2025

Bengaluru, India · Healthcare & Sustainable Procurement Platforms

- Built a **React provider-search experience with 6+ advanced filters** using an enterprise Storybook design system, delivering reusable, responsive and accessible healthcare interfaces.
- Improved accessibility/UI compliance by **~30%**, resolving WCAG/ARIA, keyboard, localisation and cross-browser defects across English/Spanish and desktop/mobile platforms, validated with Perfecto.
- Reduced Angular page-load time by **~40%** through lazy loading and modular refactoring while developing dynamic supplier-assessment workflows with Angular, RxJS and Node.js.
- Implemented backend-driven **mandatory/optional questionnaire rules** and traced defects across REST APIs, Elasticsearch and PostgreSQL/DynamoDB across dev, test and production.
- Tested **~500 supplier invitations** through Postman, diagnosing HTTP 429 rate-limit failures and applying request controls; supported CI/CD reviews and deployment validation.

Freelance Full-Stack Developer

Jun 2022 – Oct 2023

Remote · Residential Real-Estate Platform

- Built **multi-criteria property search** across location, BHK, price, property type and construction status, integrating React with Node.js REST APIs to deliver filtered listings.
- Integrated **Google Maps neighbourhood exploration** into reusable property-detail pages, surfacing nearby hospitals, transport, restaurants and shopping amenities.
- Improved property-search performance by **~30%** through component refactoring, lazy loading and pagination; built validated enquiry and Nodemailer workflows.

PROJECT

ExpenseFlow — Full-Stack Personal Finance Platform

[Live Demo](#) | [GitHub](#)

React · TypeScript · Node.js/Express · MongoDB · Tailwind CSS

- Engineered an end-to-end **personal finance platform** with budgets, recurring expenses, transaction filtering, CSV/PDF exports, spending alerts and interactive analytics dashboards.
- Built **MongoDB aggregation pipelines and compound indexes** for financial analytics, alongside JWT/RBAC, API rate limiting, paginated queries and code-split React routes.

EDUCATION

B.Tech, Computer Science and Engineering

2018–2022

Panimalar Institute of Technology (Anna University)

CGPA: **9.22/10** | **University Rank 19** | Gold Medal for Academic Excellence

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals — Microsoft

May 2025

Google UX Design Professional Certificate — Google / Coursera

May 2023

Developing Front-End Apps with React — IBM / Coursera | Grade: **96%**

May 2023
